

 Multidisciplinary database

Sciences | Health | Engineering | Maths | Social Sciences | & More

Lets you search for papers, articles, reports, and reviews from many different journals and conferences in one place

Provides you with title, abstract (summary), authors, etc.

Links you to the full text through Get it at Waterloo

## How to Use it

Search for your keywords in the title, abstract, keywords field (dropdown default)

Search for related keywords (synonyms and similar terms) on one line using OR examples

Add more search boxes (using AND) for more concepts and examples

Use { } for exact phrase, " " for close phrase, and \* to find different endings

Use the sort and use the limits on the left-hand side of the results page
